

Ridley Terminals Inc. appoints Marc Dulude President and Chief Operating Officer

PRINCE RUPERT, British Columbia November 21, 2016/ Ridley Terminals Inc. (RTI) announced today the appointment of Marc Dulude as President and Chief Operating Officer (COO) effective December 5, 2016. Marc succeeds David Kirsop, who has been Interim President and COO since January 1, 2016.

Byng Giraud, Ridley Terminals Chairman, said: "After a significant global executive search, the Board has concluded that Marc's considerable leadership and experience in bulk terminal facility management, along with his strong track record of success in commercial affairs and diversification, made him the best candidate for the job." Mr. Giraud added, "Marc has demonstrated throughout his career the ability to successfully work towards growing the bottom line. Our terminal facility is currently at a crossroads and we look forward to Marc continuing his track record of growth here at Ridley Terminals."

Marc Dulude Career and Educational Highlights:

- Bachelor of Economics and Masters of Urban and Regional Planning and Economic Development from the University of Laval
- Executive Vice President and COO of IMTT-Quebec Inc. (1994-Present)
- Vice President, Commercial Affairs Port of Quebec Corporation (1985-1994)
- Marine Activities Sector representative on Province of Quebec Maritime Forum (2001-2013)
- Member of the Canadian Coast Guard National Consultative Committee, Member (1997)
- Eastern Canadian Grain Coalition and FACTS Coalition, Member (1993)

About Ridley Terminals Inc.:

Established in 1983, Ridley Terminals Inc. owns and operates a world class bulk handling terminal in Prince Rupert, on the north coast of British Columbia. RTI is serviced by CN, a Class 1 North American railroad. RTI provides an export point for metallurgical and thermal coal, petroleum coke, and is capable of handling other bulk commodities. RTI has a reputation of providing professional, reliable, and efficient services to customers, as well as maintaining an excellent safety record. RTI is registered in ISO 9001, 14001, and OHSAS 18001.
